*Stick Together, A Collaboration of Music and Dance*, is the result of an ongoing relationship between **Noby Lehmann &**

**Rhythm Talk**, and **Faith Jensen-Ismay** with **Mojalet Dance Collective** that began in 2006. Originally the two groups were introduced to each other in May 2006, while **Mojalet** was on a tour performing in Switzerland. Both groups are inspired by each other's work, thus many new music scores and choreography have developed over the years. The groups have toured and performed together in Switzerland and Germany, and **Rhythm Talk** joined **Mojalet** in 2007 for a three-week intensive tour in San Diego that resulted in the development of many new works on their newest release, **Stick Together**.
